100%
Australian
owned

Our ambition at **LIFTRONIC** is not to be the biggest... just the BEST!

Unitronic[®]

The latest generation of Liftronic's Machine RoomLess (MRL) Elevator

Gearless Traction Lift Technology

Full Design Flexibility

Ability to Customise the Lift to your specific requirements

The Unitronic system benefits include:

- > Loads up to 27 Passengers (2025Kg)
- > Lift speed 1.0mps or 1.6mps (load dependant in some cases)
- > Lower operating costs with the latest Variable Voltage, Variable Frequency (VVVF) Drive and Gearless Lifting Machines
- > Compliance with AS1735 (Australian Standard for Lifts & Escalators)
- > Removes the need for a purpose built lift motor room because all machinery is located within the lift shaft
- > Wall mounted control cabinet located adjacent to the landing entrance on the top floor served
- > Reduced overall building height
- > Reduced building construction costs
- > Reduced shaft dimensions maximising floor space within the building
- > Low noise and vibration levels
- > Suitable for most commercial, domestic & residential applications
- > Full customisation & design flexibility available

Our friendly staff are willing to assist you in designing to your specific requirements and assisting you with providing the most cost effective solution for your project.

100% Australian owned lift company
